SUMMARY

A passionate data analyst with a keen eye for uncovering insights, I thrive at the intersection of data, technology, and business strategy. With a strong foundation in statistical analysis, data interpretation and visualization, I transform complex datasets into clear, actionable intelligence that drives decision-making and fuels business growth.

PROFESSIONAL EXPERIENCE

Healthcare Data Analyst

Precious HMO

Jan, 2022 - Present

Abuja, NG

Precious HMO is a national Health Maintenance Organization (HMO) that provides health insurance services to Nigerians.

- Cleaned & analyzed over 100k unstructured claims records for a 3-year period (2019 – 2021).
- Recorded 95.3% success rate on 3 years claims reconciliation with 1126 Providers.
- Improved the performance rate of claims officers by 140% per month through dashboard integration and automation.
- Uncovered over N22m+ Provider claim fraud.
- Determined profitability of clients through MLR analysis.
- Identified formal sector enrollee fraud with over 105k additional enrollees that were unpaid for over 2 years period.
